magnetic; Downloadable computer software to enable data retrieval, namely, for obtaining data from a database management system; Downloadable content access software, namely, downloadable media player software; Mobile data devices, namely, mobile phones; Digital audio servers, namely, digital audio players; Downloadable digital photos, namely, downloadable image files containing sports cars; Blank USB cards; Computer programs for printing, namely, downloadable computer programs for printers; Pre-recorded video discs featuring sports cars; Drone detection systems in the nature of radar apparatus; Downloadable computer software for data management; Music sound carriers, namely, digital audio players; Encoded identity cards for access to computer software; Magnetically encoded credit cards; Downloadable computer programs for remote access to computers or computer networks; Interactive entertainment software for use with computers, namely, downloadable computer game software; Optical data carriers with recorded software, namely, recorded game software; Downloadable electronic game programs; Downloadable series of children's books; Downloadable computer programs for image processing; Downloadable databases in the field of sports cars; Downloadable computer game software for use with video game consoles; Optical glasses; Cases for music storage devices, namely, protective carrying cases for portable music players; Downloadable computer software for data processing; Interactive data transmission apparatus, namely, mobile phones; Blank optical data carriers; Television computer application software, namely, downloadable computer application software for streaming television programs; Downloadable computer game software for accessing online interactive games; Pre-recorded DVDs featuring games, namely, recorded game software; Server-side software, namely, downloadable network access server operating software; Downloadable computer programs for editing images, sounds and videos; Downloadable musical sound recordings; Downloadable interactive video game software; Downloadable software for data, file, and database management; Downloadable coupons for mobile devices, namely, consumer coupons downloaded from a global computer network; Computer software for wireless network communication, namely, downloadable communications software for connecting wireless network users; Downloadable computer games software; Downloadable computer programs for accessing, browsing and researching online databases; Interactive television terminals, namely, television sets; Downloadable virtual reality software for educational purposes, namely, medical teaching; Pre-recorded exercise DVDs, namely, pre-recorded digital video discs featuring instructional exercise videos; Downloadable and recorded computer game programs; Sound recordings, namely, downloadable musical sound recordings; Programmed video games recorded on cartridges, namely, recorded game software; Digital storage disk drives, namely, disk drives for computers; Protective cases for audio equipment in the nature of headphones; Downloadable computer software for monitoring computer systems; Downloadable computer programs for accessing and using the internet; Downloadable computer telephony software; Downloadable computer programs for project management; Downloadable computer software for remote monitoring and analysis of computer systems; Downloadable graphical user interface software; Pre-recorded CD-ROMs, namely, multimedia software recorded on CD-ROM featuring sports cars; Data mining software, namely, downloadable computer software for extracting data from databases; Business technology software, namely, downloadable computer software for project management; Pre-recorded music videos, namely, pre-recorded DVDs featuring music videos; Game programs for arcade video game machines, namely, recorded video game software; Virtual reality software for simulation purposes, namely, downloadable virtual reality training simulation software in the field of auto racing; Computer software relating to monetary affairs, namely, downloadable computer software for payment processing; Pre-recorded media, namely, digital video discs featuring sports cars; Machine learning software for analysis purposes, namely, downloadable computer software using artificial intelligence for machine learning; Encoded time cards, namely, encoded identity cards for timekeeping purposes; Recorded programs for handheld game apparatus with liquid crystal displays, namely, recorded game software; Downloadable screen savers for smartphones; Social software, namely,

downloadable computer software for planning social entertainment events; Downloadable virtual reality game software; Downloadable electronic reports, namely, downloadable reports about properties and buildings; Downloadable electronic game software; Video games in the form of computer programs stored on data carriers, namely, recorded game software; Software, namely, downloadable computer game software; Sports glasses; Recorded music in the form of discs, namely, pre-recorded DVDs featuring music; Predictive maintenance software, namely, downloadable computer software for tracking maintenance history of computers; Data storage media, namely, blank tapes for storage of computer data; Downloadable computer software for evaluating customer behavior in online shops; Downloadable electronic newsletters in the field of sports cars; Downloadable computer software for automating data warehousing; Downloadable printing fonts provided by means of electronic transmission; Software for analyzing business data, namely, downloadable computer software for creating searchable databases of information and data; Interactive business software, namely, downloadable computer software for creating searchable databases of information and data; Downloadable video game software programs; Virtual reality software for telecommunications, namely, downloadable virtual reality software for virtual reality chat rooms; Downloadable software for processing images, graphics, sound, video and text; Downloadable computer software for information management, namely, managing electronic data; Telecommunication apparatus in the nature of wireless receivers in the form of jewelry; Downloadable augmented reality software for education, namely, medical teaching; Communication software, namely, downloadable computer software for sending electronic messages; Downloadable computer software for processing digital music files; Computer software for games, namely, downloadable computer game software; Communication headphones, namely, telephone headsets; Communication controls, namely, apparatus for transmission of communication; Telecommunication apparatus in the nature of wireless receivers in the form of jewelry, namely, watch straps that transmit data to other electronic devices; Downloadable computer software that enables the delivery of electronic media over communication networks; Multifunction cards for financial services, namely, magnetic coded cards for use in financial transactions; Downloadable emoticons for mobile phones; Downloadable augmented reality game software; Downloadable video and computer game programs; Blank smart cards; Financial management software, namely, downloadable computer software for managing bank accounts; Downloadable computer programs for spreadsheet management; Communication systems for helmets, namely, headsets for use in helmets for remote communication; Online messaging software, namely, downloadable computer software for sending electronic messages via the Internet; Downloadable computer software for enhancing the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images, and moving pictures; Interfaces for computers; Collaboration software platforms, namely, downloadable computer software for project management; Optical and floppy disk drives; Downloadable computer software for transferring information between computers; Interactive electronic publications, namely, e-zines featuring sports cars recorded on computer media; Downloadable computer software for creating and editing music and sounds; Network and device security software, namely, downloadable computer anti-virus software; Encoded identity cards; Encoded printed cards, namely, gift cards printed on magnetically encoded paper cards; Programs for smartphones, namely, downloadable game programs for smartphones; Virtual reality headsets; Downloadable computer software for monitoring, analyzing, controlling and executing operations in the physical world, namely, controlling and operating networked devices in the internet of things (IoT); Application software for mobile devices, namely, downloadable game software for mobile devices; Pre-recorded audio tapes featuring games; Database server software, namely, downloadable network access server operating software; Encoded telephone cards, namely, pre-paid telephone calling cards, magnetically encoded; Downloadable computer software for

embedding online advertising on websites; USB sticks, namely, blank USB flash drives; Downloadable computer programs for searching the contents of computers and computer networks with remote control; Arcade video game machine software, namely, recorded video game software; Sunglasses; Coded customer cards, namely, magnetically encoded gift cards; Recorded data carriers for use with computers, namely, prerecorded magnetic data carriers featuring sports cars; Encoded key cards; Mobile device management software, namely, downloadable computer software for managing mobile devices; Downloadable computer software for local area network management; Books recorded on data tapes, namely, electronic books featuring sports cars recorded on computer media; Coded credit cards with prepaid function in the nature of magnetically encoded credit cards and gift cards; Downloadable electronic publications in the nature of newsletters in the field of sports cars; Recorded CD-i, namely, pre-recorded CDs featuring sports cars; Cases for children's eye glasses; Downloadable computer programs for video and computer games; Virtual reality models, namely, downloadable virtual reality training simulation software in the field of auto racing; Communication and networking software and software for social networks, namely, downloadable communications software for connecting global computer network users; Downloadable and recorded computer game software; Drawing apparatus and instruments for use with computers, namely, computer styluses; Digital whiteboard software, namely, downloadable computer software for use with computer whiteboards; Computer programs relating to local area networks, namely, downloadable local area network operating software; Downloadable computer software for estimating resource needs; Downloadable computer programs for processing digital music files; Downloadable computer software for cleaning and optimizing computer systems, namely, digitally formatting and compressing data; Downloadable computer game programs featuring simulated securities trading; Electronically recorded data, namely, prerecorded magnetic data carriers featuring sports cars; Pre-recorded videotapes of motion pictures featuring sports cars; Downloadable interactive multimedia game software; Digital recording media, namely, blank CDs; Computer programs for games, namely, downloadable computer game software; Encoded self-adhesive labels, namely, labels carrying magnetically, optically, or electronically recorded or encoded information; Pre-recorded compact discs featuring music; Downloadable computer software for maintaining and operating computer systems; Communication hubs; Digital book readers; Phonograph records featuring music; Computer programs for interactive television, namely, downloadable computer game programs featuring interactive games and quizzes; Pre-recorded optical discs featuring music; Cases for telephones; Pre-recorded laser discs featuring games; Downloadable computer software for processing business transactions; Computer programs for video games, namely, downloadable computer programs for video and computer games; Game software, namely, downloadable and recorded computer game software; Downloadable enterprise content management software; Downloadable computer programs for designing user interfaces; Downloadable computer software programs for database management; Computer software, namely, downloadable computer operating software; Stereoscopic equipment for 3D viewing, namely, stereoscopes; Pre-recorded compact discs featuring sports cars; Downloadable educational media, namely, multimedia files featuring sports cars; Downloadable software applications for use with 3D printers; Downloadable video game programs; Downloadable mobile applications for transferring data between mobile phones; Interactive databases, namely, downloadable interactive software for use in database management; Downloadable computer software for use in database management; Protective cases for portable media players; Software for playing games on video devices, namely, recorded video game software; Downloadable electronic publications in the nature of brochures in the field of sports cars; Credit card encoding machines; Downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; Books stored on discs, namely, electronic books featuring sports cars recorded on computer media; Interactive video devices, namely, interactive touch screen terminals; Electronically encoded identification bracelets; Pre-recorded DVDs featuring music; Virtual reality cinemas, namely, downloadable virtual

reality software for watching movies; Downloadable computer programs for trading stocks and bonds; Computer software for electronic commerce, namely, downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Protective carrying cases specially adapted for personal digital assistants; Downloadable video recordings featuring sports cars; Electronic article tracking software, namely, downloadable computer software for use with electronic devices for locating and tracking lost articles using cellular communication networks; Programs for arcade video game machines, namely, recorded computer game software; Computer game cartridges; Image files for download, namely, downloadable images in the field of sports cars; Downloadable computer game programs; Coded cards with payment function, namely, magnetically encoded gift cards; Protective carrying cases specially adapted for optical lenses and microscope objectives; Downloadable computer programs for network management; Key cards, encoded; Downloadable computer software for data transmission; Downloadable computer software for creating financing models; Downloadable diaries and organizers for printing, namely, downloadable printable planners and organizers; Wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, vehicle tracking devices, security systems, and lighting systems; Pre-recorded discs with images stored thereon, namely, prerecorded CDs featuring trading cards; Records, namely, phonograph records featuring music; Computer software for data search, namely, downloadable computer search engine software; Computer game discs; Data storage devices, namely, blank USB flash drives; Downloadable computer software programs for use as a spreadsheet; Downloadable computer game application software for smartphones; Downloadable computer application software for mobile phones, namely, software for database management; Spreadsheet software, namely, downloadable computer software programs for use as a spreadsheet; Encoded membership cards, namely, encoded identity cards; Machine learning software for monitoring purposes, namely, downloadable computer software using artificial intelligence for machine learning and facial and speech recognition; Computer software that enables electronic media to be provided over the Internet, namely, downloadable computer software for streaming digital media; Recorded files, namely, prerecorded magnetic data carriers featuring information about sports cars; Computer game programs recorded on data tapes, namely, recorded computer game programs; Data carriers for the recording of data, namely, blank USB flash drives; Computer software relating to financial affairs, namely, downloadable computer software for producing financial models; Downloadable computer software for analyzing market information; Cases for eye glasses; Graphics application software, namely, downloadable computer graphics software; Content management software, namely, downloadable web site development software; Training guides in electronic form, namely, downloadable electronic publications in the nature of training guides in the field of auto racing; Downloadable electronic greeting cards for sending by regular mail; Software for setting up online businesses, namely, downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Electronic databases in the field of sports cars recorded on computer media; Virtual reality headsets for playing video games; Game software for use with computers, namely, downloadable computer game software; Digital photo frames; Prerecorded digital audio tapes featuring information about auto racing; Holographic security apparatus, namely, electronic machines used to apply holographic overlay and to set up and control holograms and verification thereof; Pre-recorded fitness DVDs, namely, pre-recorded digital video discs featuring instructional exercise videos; Three-dimensional image manipulators, namely, downloadable computer programs for editing three-dimensional images; Downloadable interactive multimedia game programs; Virtual server software, namely, downloadable computer software for controlling and managing virtual servers; Interactive touch screen terminals; Downloadable computer software for evaluating market information; Downloadable computer programs for data processing;

Digital picture frames being digital photo frames for displaying digital pictures; Computer software for cloud computing services, namely, downloadable cloud-computing software for managing virtual machines on a cloud computing platform; Downloadable computer software for file sharing; Downloadable computer software for converting document images to electronic formats; Recorded data, namely, prerecorded magnetic data carriers featuring information about sports cars; Data processing systems being data processing apparatus; Downloadable media, namely, downloadable audio and video recordings featuring sports cars; Downloadable mobile applications for booking taxis; Cases for data storage devices, namely, cases for diskettes; Software for smartphones, namely, downloadable mobile operating system software; Pre-recorded audio cassettes featuring information about sports cars; Pre-recorded video tapes featuring games; Downloadable electronic publications in the nature of magazines in the field of video games; Encoded or magnetic information carriers, namely, labels carrying magnetically recorded or encoded information; Pre-recorded video discs featuring auto racing; Communication apparatus being smartphones; Encoded smart cards containing programming used for accessing control systems; Wireless communication devices for the transmission of sound, data or images, namely, smartphones; Animated cartoons in the nature of motion picture films featuring children's entertainment; Downloadable computer software for computer aided software development; Content control software, namely, downloadable computer software for use as an Internet filter; Computer software platforms, downloadable, for database management; Data storage devices and media, namely, blank USB flash drives; Downloadable computer software for creating dynamic websites; Frames for glasses and sunglasses; Downloadable computer software for transferring data between computers over a local area network; Holographic devices being hologram apparatus; Science software, namely, downloadable computer software for analyzing speed and temperature measurements; Virtual classroom software, namely, downloadable computer software for video conferencing in the field of remote learning; Downloadable augmented reality software for creating maps; Downloadable electronic publications in the nature of electronic newsletters in the field of video games; Programmable logic arrays being computer chips; Sports helmets; Downloadable computer software for creating online advertising on websites; Data processing software for graphic representations, namely, downloadable computer software for processing data into graphs; Software packages for computers, namely, downloadable computer software platforms for application development; Downloadable electronic books in the field of golf instruction; Interactive entertainment software, namely, downloadable computer game software; Mobile applications for educational purposes, namely, downloadable children's educational mobile applications; Computer programs for recorded games, namely, recorded computer game programs; Computer software that enables browsing on global computer networks, namely, downloadable computer software for use as a web browser; Pre-recorded compact discs featuring games; Pre-recorded magnetic data carriers, namely, prerecorded magnetic data carriers featuring sports cars; Cases for music, audio and related electronic equipment, namely, cases for MP3 players; Downloadable digital music; Magnetically encoded gift cards; Downloadable computer software using artificial intelligence for machine learning in the field of finance; Downloadable electronic maps; Cases for storing glasses; Wireless communication devices for the transmission of multimedia content, namely, smartphones; Recorded motion picture films about sports cars; Telecommunication devices for use with mobile networks, namely, smartphones; Application software, namely, downloadable game software for mobile devices; Sunglasses frames; Server software, namely, downloadable network access server operating software; Downloadable computer software for the rental of advertising space on websites; Electronically recorded data from the Internet, namely, recorded electronic data files featuring information about sports cars; Downloadable computer software for organizing and viewing digital images and photographs; Crash helmets for cyclists; Downloadable augmented reality software for use in mobile devices to integrate electronic data with real world conditions; Downloadable computer software for providing access to information directories;

Magnetically encoded blank bank cards for issuance by financial institutions; Telecommunication apparatus in the nature of wireless receivers in the form of jewelry, namely, watch straps that transmit data to smartphones; Pre-recorded video tapes featuring music; Downloadable computer programs for electronic cash register systems; Downloadable computer software for scanning images and documents; Downloadable digital music provided on the Internet via a website; Data processing programs recorded on machine-readable data carriers, namely, recorded computer programs for word processing; Computer game software downloaded from the Internet, namely, downloadable computer game software; Downloadable templates for making audiovisual presentations; Downloadable computer software for wireless content delivery; Downloadable computer software for application and database integration; Downloadable interactive entertainment software for playing video games, namely, downloadable computer game software; Software packages, namely, downloadable computer software platforms for application development; Downloadable computer software for digital distributed data storage; Digital books downloadable from the internet, namely, downloadable e-books in the field of sports cars; Pre-recorded video cassettes featuring cartoons; Holographic plates being hologram apparatus; Downloadable computer software platforms that enable users to collect money; Downloadable comic strips; Downloadable computer programs for activating access or entry controls; Carrying cases for cell phones; Data storage disks, namely, blank disks for computers; Computer programs for telecommunication purposes, namely, downloadable computer software for sending and receiving electronic messages; Preprogrammed tapes, namely, prerecorded audio tapes featuring music; Computer game programs downloadable from the Internet, namely, downloadable computer game programs; Computer software for communication processing, namely, namely, downloadable computer software for sending and receiving electronic messages; Cases for sunglasses; Downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of locating vehicles; Data storage for databases, namely, blank USB flash drives; Communication transmission devices, namely, mobile phones; Downloadable computer software for managing website content; Musical recordings; Downloadable mobile applications for use with portable computing devices, namely, downloadable children's educational mobile applications; Downloadable software for managing virtual machines on a cloud computing platform; Fashion glasses, namely, sunglasses; Coded credit cards, namely, magnetically encoded credit cards; Music software, namely, downloadable music-composition software; Debt collection software, namely, downloadable computer software for use in tracking money owed by customers; Cartoons, namely, video disks with recorded animated cartoons; Downloadable computer software for creating music videos; Downloadable phone ringtones; Downloadable computer software for database management; Computer game software downloadable from a global computer network and wireless devices, namely, downloadable computer game software; Multimedia recordings, namely, downloadable video recordings featuring sports cars; Downloadable virtual reality software for playing computer games; Downloadable gesture recognition software; Interactive graphic screens, namely, touch screens; Encoded loyalty cards, namely, magnetically encoded gift cards; Computer software for the medical field, namely, downloadable computer software for controlling and managing patient medical information; Interactive video game programs, namely, downloadable interactive game programs; Software that enables secure credit card transactions, namely, downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Blank USB flash drives; Computer software for entertainment purposes, namely, downloadable computer game software; Software platforms for cooperation management, namely, downloadable computer software platforms for project management; Computer software for viewing digital media, namely, downloadable computer software for use as a video player; Software for card readers, namely, downloadable computer software for reading bar codes; Video discs containing recorded animated films; Downloadable screen

saver software for computers; Downloadable publications in electronic form, namely, electronic newsletters featuring sports cars; Multimedia software recorded on CD-ROM featuring sports cars; Software for students, namely, downloadable educational software featuring instruction in math; Software for tablet computers, namely, downloadable computer game software; Computer software for delivery of photographs to cell phones, namely, downloadable computer software for transmitting images to mobile devices; Downloadable digital music provided from the Internet; Mobile data communication devices, namely, cell phones; Downloadable electronic publications in the nature of newspapers in the field of current events; Software for smart contracts, namely, downloadable computer software for managing cryptocurrency transactions using blockchain technology; Audio tapes prerecorded with music; Cases for photographic apparatus; Computer software that enables information to be provided via the Internet, namely, downloadable intelligent personal assistant software for searching the internet for traffic and weather information; Downloadable digital music provided from Internet websites; Downloadable game software; Data management software, namely, downloadable computer software for use as a database; Software for digital electronic handheld devices, namely, downloadable computer game software for mobile devices; Magnetically encoded charge cards; Downloadable podcasts in the field of sports cars; Cases for glasses and sunglasses; Downloadable digital music provided from Internet sites; Sunglasses temples being eyeglass temples; Music series recorded on data carriers, namely, series of musical sound recordings; Communication software for connecting global computer networks, namely, downloadable network access server operating software; Pre-recorded videos, namely, pre-recorded video discs, video recording and video tapes featuring sports cars; Virtual reality motion simulators, namely, flight simulators; Pre-recorded laser discs featuring music; Downloadable computer software for cost estimation; Hologram screens being hologram apparatus; Downloadable graphic design templates; Interactive database software, namely, downloadable computer software for database management; Cases adapted for cameras; Downloadable computer service software, namely, downloadable computer utility programs for performing computer maintenance; Encoded cards being magnetically encoded charge cards with integrated circuits; Encoded plastic cards being magnetically encoded charge cards; Downloadable computer utility programs, namely, downloadable computer utility programs for performing computer maintenance; Downloadable computer graphics; Downloadable video game software; Virtual reality cinema software, namely, downloadable virtual reality software for watching movies; Software for electronic commerce and electronic payments, namely, downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Digital signs; E-mail backup software, namely, downloadable computer software for backing up e-emails to cloud based storage; Database server, namely, computer servers; Downloadable computer game software programs; Encoded keys, namely, encoded key cards; Holographic projectors being hologram apparatus; Downloadable computer software for document management; Computer software for business use, namely, namely, downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Recorded computer game software; Computer programs downloadable from the internet, namely, downloadable computer software for document management; Computer game software for use on cellular phones, namely, downloadable computer game software; Encoded cards for electronic transfer of financial transactions, namely, magnetically encoded charge cards; Pre-recorded audio tapes with music; Downloadable interactive entertainment software for playing computer games, namely, downloadable computer game software; Downloadable computer software for processing digital images; Mobile telecommunication handsets, namely, mobile phones; Data storage units, namely, blank USB flash drives; Data storage devices for computers, namely, hard disk drives; Website development software, namely, downloadable computer software for website development; Downloadable gaming software that generates or displays wager outcomes of gaming machines; Downloadable e-wallets, namely, downloadable computer software for making digital financial transactions;

Interactive software based on artificial intelligence, namely, downloadable computer programs using artificial intelligence for facial and speech recognition; Downloadable electronic publications in the form of magazines in the field of sports cars; Downloadable mobile applications for reserving taxis; Software for blogs, namely, downloadable computer software for creating and maintaining blogs; Digital video servers, namely, computer servers; Encoded electronic chip cards for identifying particular users of computers and mobile telephones; Digital records being pre-recorded digital video discs featuring music; Prerecorded laser discs featuring music; Downloadable computer software for processing images, graphics and text; Machine readable data carriers recorded with programs, namely, prerecorded magnetic data carriers featuring recorded computer game programs; Music files for download; Downloadable computer software for designing and modeling 3D printed matter; Encoded or magnetic access control cards, namely, magnetically encoded key cards; Mobile data receivers; Computer programs for using the Internet and the World Wide Web, namely, downloadable computer programs for use as a web browser; Downloadable information relating to games, namely, downloadable electronic publications in the nature of articles in the field of games; Downloadable communication software for connecting computer network users; Credit card terminals; Sunglasses cords being eye glass cords; Downloadable course materials for training and education in the field of auto racing; Computer software for audio recordings, namely, downloadable computer software for manipulating digital audio information for use in audio media applications; Downloadable motion pictures about sports cars; Downloadable mobile applications for the transmission of information; Computer software for interconnected network billing in the field of telecommunications, namely, downloadable computer software for collecting and managing information about telecommunications data usage and charges; Downloadable virtual and augmented reality game software; Prerecorded video tapes with recorded animated cartoons and not containing music; Downloadable computer programs for creating graphics for advertising purposes; Pre-recorded DVDs featuring trading cards; Downloadable video recordings featuring music; Downloadable computer software for word processing in the field of electronic publishing; Downloadable email software, namely, downloadable computer software for sending and receiving emails; Data storage programs, namely, downloadable computer software for database management; Coded programs, namely, downloadable computer software for encryption; Downloadable image files containing wallpapers for computers and telephones; Credit card reader, namely, card readers for credit cards; Computer software relating to financial history, namely, downloadable computer software for tracking financial transactions; Typeface fonts recorded on magnetic data carriers; Pre-recorded video tapes featuring information about sports cars; Downloadable computer software platforms for social networking; Downloadable computer video game software; Cases for contact lenses; Downloadable graphics for cell phones; Pre-recorded flash memory cards featuring sports cars; Interactive entertainment software for video games, namely, downloadable video game software; Downloadable computer game software; Pre-recorded cassettes featuring music; Downloadable computer security software; Downloadable ringtones for cell phones; Downloadable electronic publications in the nature of articles in the field of sports cars; Computer software that enables information to be provided over communication networks, namely, downloadable communications software for connecting computer network users; Optical data storage drives, namely, optical disk drives; Computer game software downloadable from a global computer network; Music video recordings; Magnetically encoded customer credit cards; Communication networks, namely, communications servers; Stereoscopic 3D displays for attachment to the head, namely, 3D spectacles; Downloadable computer software using artificial intelligence for machine learning in the field of advertising; Downloadable computer programs and software for image processing on mobile phones; Multimedia software recorded on CD-ROM featuring auto racing; Downloadable mobile applications for information management, namely, downloadable computer software for use in database management; Mobile

device software, namely, downloadable mobile operating system software; Mobile telecommunication devices being cell phones; Software downloadable from the Internet, namely, downloadable computer software for use as a spreadsheet; Application software for social networking services via the Internet, namely, downloadable computer application software for social networking; Interactive software, namely, downloadable computer game software; Software for operating online shops, namely, downloadable payment gateway software for linking e-commerce websites to credit card processing networks; Downloadable computer software to enhance the audiovisual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images, and moving pictures; Preprogrammed panels being electric control panels; Downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Cases for pocket calculators; Downloadable desktop publishing software; Recorded computer programs for providing all-round visibility in vehicles; Frames for glasses; Data processing software for word processing, namely, downloadable computer software for word processing; Downloadable augmented reality training simulation software in the field of auto racing; Computer software for fonts, namely, downloadable computer software for creating printing fonts; Downloadable computer software for administration of online games; Encoded cards for electronic funds transfer, namely, magnetically encoded charge cards; Virtual reality glasses; Database engines, namely, downloadable computer software for use in database management; Data communication software, namely, downloadable communications software for connecting global computer networks; Virtual social network software, namely, downloadable virtual reality software for virtual chat rooms; Downloadable computer software for use in video game development; Sunglasses cases; Servers for hosting websites, namely, computer servers; Downloadable postcards; Downloadable computer software for authorizing access to databases; Credit card type USB sticks, namely, blank USB flash drives in the shape of a credit card; Downloadable software applications for computers, namely, downloadable computer software applications for use in electronic storage of data; Pre-recorded video compact discs featuring sports cars; Three-dimensional viewer, namely, stereoscopes; Software testing software, namely, downloadable computer software for testing the performance of other software; Pre-recorded audio tapes featuring information about sports cars and not containing music; Downloadable computer utility programs for performing computer system diagnostics; Downloadable computer software for creating virtual images; Credit check software, namely, downloadable computer software for verifying credit ratings and history; Downloadable computer software for programming facsimile machines; Computer software for video games, namely, downloadable computer game software; Downloadable cartoon strips; Holographic disks, namely, blank optical disks; Computer software for search engines, namely, downloadable computer software for use as a search engine; SIM cards; Computer software for electronic bulletin boards, namely, downloadable computer software for viewing and posting to electronic bulletin boards; Digital computer input and output scanners; CMS software, namely, downloadable enterprise content management software; Downloadable computer software for monitoring self-service terminals; Holographic images, namely, downloadable holographic images in the field of sports cars; Downloadable computer software for creating and designing websites; Dashboard software, namely, downloadable software for monitoring and controlling communication between computers and automated machine systems; Digital photo printers; Computer software for mobile phones, namely, downloadable computer game software for use with mobile devices; Downloadable computer application software for mobile phones, namely, software for use in electronic storage of data; Downloadable electronic publications in the nature of electronic newsletters in the field of games; Computer software for advertising purposes, namely, downloadable computer software for creating advertisements; Downloadable electronic greeting cards; Instant messaging software, namely, downloadable computer software for sending electronic messages over the Internet; Downloadable digital music from the internet; Credit cards with magnetic strips, namely, magnetically encoded credit cards;

Protective cases for tablet computers; Electronic publications, namely, e-zines featuring sports cars recorded on computer media; Downloadable computer application software for use with mobile devices, namely, software for use in electronic storage of data; Operating and user instructions for computer software and computers stored on digital storage media; Protective cases for portable digital media players; Internet access software, namely, downloadable communication software for providing access to the Internet; Optical communication apparatus, namely, fiber optic light and image conduits; Downloadable electronic sheet music; Cases for satellite navigation devices, namely, protective carrying cases specially adapted for global positioning system apparatus; Downloadable instant messaging software, namely, downloadable computer software for sending electronic messages over the Internet; Holograms, namely, downloadable holographic images in the field of sports cars; Home automation servers, namely, home automation systems comprised of computer hardware, wireless and wired controllers, and downloadable software for automating appliances, lighting, HVAC, security, and electrical power; Message redirection software, namely, downloadable software for the redirection of electronic messages to alternate addresses; Virtual reality hardware, namely, virtual reality headsets; Coded payment cards with prepaid function, namely, magnetically encoded charge cards; Downloadable computer game software for use with mobile devices; Computer software for playing games, namely, downloadable computer game software; Downloadable electronic books in the field of sports cars; Downloadable multimedia file containing artwork, text, audio, video, games, and Internet Web links relating to sports cars; Data glasses, namely, smartglasses; Electric contacts of precious metal; Spectacle frames made of metal or a combination of metal and plastic; Eyeglass frames made of plastic; Spectacle frames made from a combination of metal and plastic; 3D glasses for use with televisions; 3D animation software, namely, downloadable computer software for creating 3D animations; Downloadable 3D computer graphics software; 3D television receivers; Portable 3D scanners; 3D glasses; Downloadable data and image processing software for creating 3D models; 3D scanner; Interface circuits for video cameras; Monitors for use with consumer video game machines, namely, LCD monitors; Microphones for use with consumer video game machines; Controllers for local video networks, namely, electronic controllers for local area network hardware; Headphones for home video game machines; 360-degree video cameras; Routers for audio, video and digital signals, namely, network routers; Video conferencing speakers being audio speakers; Switches for routing audio, video and digital signals, namely, telecommunication switches; Memory cards for video game machines; Software for video surveillance systems, namely, downloadable network video recording software for Internet Protocol video surveillance; Lenses for video cameras; Downloadable image recognition software; Jewelry that transmits data, namely, telecommunication apparatus in the nature of wireless receivers in the form of jewelry

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 2 - AN ILLUSTRATION DRAWING WITHOUT ANY WORDS(S)/ LETTER(S) **Description of the Mark** The mark consists of a three-dimensional configuration comprising the design and layout of a dart play station within a dart pub. The elements that constitute the mark and are claimed as part of the mark are the panel attached to a wall as part of a dart play station, comprised of 4x5 inlaid square designs. The mark also includes a fleur-de-lis design element and an exposed bulb lighting display attached to the wall, depicting a "stacked" display, with the center of the lighting fixture demonstrating a flat level, and the remaining portion of the lighting display conveying elevating thresholds to the center of the display. The mark further consists of the stylized table legs as part of two tables stretching from the dart play station. The mark also includes the seating arrangement in front of the dart board incorporating a round quilted cushion, attached to a frame with inlaid square designs matching the panel design used in the dart play station, along with the back of the seating arrangement evincing two design elements attached to the first and last quarters of the panel in the rear of this seating arrangement. The placement of various items as specified herein are part of the overall mark. The matter shown in broken or slashed lines indicates placement of the mark and is not part of the mark. **Acquired Distinctiveness** In whole

MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the words "LAVENDER ROOSTER" above and arching around the head of a goat, that has horns with detailed lines, detailed lines in the ears showing dimension and texture, and lines and dots around the nose and chin indicative of whisker hair. There is a Lavender breed Rooster standing behind the goat's head, showing the breast above the horns and to the sides of the horns above the goat's ears; shows the rooster's neck and head of the rooster behind and above the goat head. The rooster is wearing a ribbon around its neck, with a small bow in front of 4 scallop edges on each side of the rooster's wattle. The goat has a lotus flower centered on its forehead, with a tiny 3 leaf design centered above the center lotus petal, and a tiny single leaf above each of the lotus petals to the left and right of the center lotus petal. There is a dried sage bundle in the goat's mouth that is burning smoke, which wafts up the left side, in a semicircle around the goat's ear, towards the rooster's head, ending with three dots and a semicircle/crescent moon shape with the points facing away from the rooster. To the right of the goat's mouth is a sprig of lavender that forms a semicircle around the right side of the goat's head, circling around the ear towards the rooster's head, ending in three dots and a semicircle/crescent moon shape, with the points facing away from the rooster. Between the smoke and the goat's head on the left side, and the lavender and the goat's head on the right side, there is the same design on each side consisting of a dot with a leaf in the middle then a dot on the other end, on the diagonal, placed at the same angle as the goat's cheek bones on each side.
