MARK INFORMATION

Standard Character Claim No **Mark Drawing Type** 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S) **Description of the Mark** The mark consists of the word "ideon" followed by three vertically parallel lines. **Color Claimed** Color is not claimed as a feature of the mark.

GOODS AND SERVICES INFORMATION

For Subsurface detectors for detecting mineral and metal deposits, air voids, liquids, cracks, fissures, and caves; Underground detectors for detecting mineral and metal deposits, air voids, liquids, cracks, fissures, and caves; Cosmic particle detectors for detecting mineral and metal deposits, air voids, liquids, cracks, fissures, and caves; Cosmic ray detectors for detecting mineral and metal deposits, air voids, liquids, cracks, fissures, and caves; Elementary particle detectors for detecting mineral and metal deposits, air voids, liquids, cracks, fissures, and caves; Muon detectors for detecting mineral and metal deposits, air voids, liquids, cracks, fissures, and caves; Cosmic particle imaging systems comprising measuring instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Cosmic ray imaging systems comprising measuring instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Elementary particle imaging systems comprising measuring instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies,

namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Muon imaging systems comprising measuring instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Geotomography particle imaging systems comprising measuring instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Subsurface mapping systems comprising measuring instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Subsurface imaging systems comprising measuring instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Subsurface modelling systems comprising measuring instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Subsurface density profiling systems comprising measuring

instruments for measuring density of subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Subsurface inversion modelling systems comprising measuring instruments for measuring density of subsurface anomalies, namely, and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, detecting instruments for detecting subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, monitoring instruments for monitoring subsurface anomalies, namely, metal and mineral deposits, voids, tunnels, reservoirs, caves, cracks, and fissures, temperature and location indicators, power and Ethernet controllers, muon and temperature sensors, counting instruments for counting muons, alignment instruments in the nature of accelerometers, calibrating instruments for calibrating muon flux, and recorded software for operating the muon detector and processing muon data; Geophysics instruments, namely, instruments for retrieving and viewing of geographic information and associated metadata; Geophysics detectors for detecting mineral and metal deposits, air voids, liquids, cracks, fissures, and caves

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For Data acquisition services for detecting and measuring density of metals, minerals, liquids, anomalies, voids, and fractures in the field of subsurface tomography; Geophysics analysis, namely, analysis of geophysics data for detecting measuring density of subsurface mineral and metal deposits, air voids, liquids, cracks, fissures, and caves; Cosmic ray tomographic detection, imaging, and modelling services; Cosmic particle tomographic detection, imaging, and modelling services; Elementary particle tomographic detection, imaging, and modelling services; Muon tomographic detection, imaging, and modelling services; Geotomography services, namely, cosmic-ray muon tomographic detection, imaging, and modelling services; Subsurface imaging services for surveying and exploration; Radiographic imaging services for surveying and exploration; Cosmic ray imaging services for surveying and exploration; Cosmic particle imaging services for surveying and exploration; Elementary particle imaging services for surveying and exploration; Muon imaging services for surveying and exploration; Subsurface mapping services; Underground mapping services; Cosmic ray intensity mapping services; Cosmic particle intensity mapping services; Elementary particle intensity mapping services; Muon intensity mapping services; Subsurface particle intensity mapping services; Computer modeling services, namely, subsurface modelling services; Computer modeling services, namely, subsurface inversion modelling services; Geological exploration and surveying services in the nature of subsurface density profiling services for the identification of metals, minerals, liquids, anomalies, voids, and fractures; Software as a service (SaaS) featuring software for analysis and modelling in the field of subsurface tomography; Software as a service (SaaS) featuring software for analysis and modelling in the field of underground tomography; Software as a service (SaaS) featuring software for analysis and modelling in the field of subsurface mapping; Software as a service (SaaS) featuring software for analysis and modelling in the field of subsurface imaging; Software as a service (SaaS) featuring software for analysis and modelling in the field of subsurface density modelling; Software as a service (SaaS) featuring software for analysis and modelling in the field of subsurface density profiling; Geological exploration and surveying services in the nature of profiling subsurface anomalies, namely, imaging, analyzing, and providing density profiles of subsurface

anomalies such as mineral and metal deposits, air voids, liquids, cracks, fissures, and caves

GOODS AND SERVICES INFORMATION

For Remote control toys, namely, cars, airplanes, boats and drones

International Classes 28 - Primary Classes **US Classes** 22, 23, 38, 50 **International Class Title** Toys and Sporting Goods

For printed user and instruction manuals for computer hardware and computer software

International Classes 16 - Primary Classes **US Classes** 2, 5, 22, 23, 29, 37, 38, 50 **International Class Title** Paper Goods and Printed Matter

For Education, namely, providing of training through classroom, on-site, and seminar instruction, arranging and conducting conferences, discussion forums, exhibitions, programs, seminars, symposiums and workshops, all with respect to computer hardware and software, and information and advice regarding the aforementioned services; training in the operation of computers and computer related products; providing online electronic games

International Classes 41 - Primary Classes **US Classes** 100, 101, 107 **International Class Title** Education and Entertainment

For providing of information regarding goods and services on the internet, namely, providing consumer product and service information via the Internet excluding in the fields of financial services, financial management insurance, and banking; procuring of contracts for the purchase and sale of goods; wholesale store services and online retail and wholesale store services featuring electrical, electronic and computer equipment, electric motors and machinery, electromechanical components and products, optoelectronic devices; freight logistics management; supply chain management services; distributorship services in the field of electrical and electronic equipment, computer hardware and software, and electric motors and machinery; distributorship services specializing in electronic, electromechanical components and products,

electrical equipment, computers and computer equipment, optoelectronic devices; business consulting services in the field of information technology and automation; online retail store services featuring information technology equipment; retail store services featuring information technology equipment; wholesale ordering services featuring information technology equipment; wholesale distributorships featuring information technology equipment; distributorships and distributorship services in the field of computers, computer hardware, computer and network software, computer and network components, and computer and network peripherals; value-added reseller distributorship services in the field of computers, computer hardware, computer and network software, computer and network components, and computer and network peripherals; procurement services for others, namely, purchasing goods and services for other businesses in the field of information technology (it), computers, computer software, computer hardware, telecommunications and networking, and consumer electronics; procurement services for others, namely, purchasing information technology (it) products, computers, computer software, computer hardware, telecommunications and networking equipment, and consumer electronics for other businesses; outsourcing services in the nature of arranging procurement of goods for others; business process outsourcing (bpo) services; business outsourcing services in the fields of information technology, computers, telecommunications and networking equipment, consumer electronics, computer software, and computer hardware, and excluding in the fields of financial services, financial management insurance, and banking; outsourced administrative management for companies; outsource service provider in the field of customer relationship management; invoicing services; billing services; operation and management of telephone call, email and chat centers for others; administration, namely, monitoring, tracking, reporting and renewing of the licensing of the goods and services of others; commercial administration in the nature of tracking, renewing and managing subscription contracts and licenses for computer hardware and software; customer relationship management (crm) services; customer service management for others; business research services excluding in the fields of financial services, financial management insurance, and banking; business support services, namely, monitoring, determining, tracking, summarizing and providing reports about equipment status, page counts and costs per copy, readings of ink, toner and paper levels, performance, location, and utilization of office equipment used for copying, printing and photographic imaging; business support services, namely, supply chain management services; design and development of marketing and advertising materials for others; sales promotion for others; marketing services; marketing research; advertising services; compilation of statistics; distributorship services in the field of computers and computer-related products

International Classes 35 - Primary Classes **US Classes** 100, 101, 102 **International Class Title** Advertising and Business

For Installation, maintenance and repair of computer hardware and telecommunications apparatus

International Classes 37 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Construction and Repair

For computer hardware and computer peripherals; electrical, electronic and computer components and equipment, namely, micro-processors, semiconductors, interconnects and passives; recorded and downloadable electromechanical software and hardware for linking communications and data networks, microchips, circuit boards, servers and display panels; recorded and downloadable data storage software and hardware; recorded and downloadable automatic identification software and hardware; recorded and downloadable computer software and hardware for wireless content delivery; computer hardware with embedded operating system software; hardware for linking communications and data networks; information technology and audiovisual equipment, namely, computers and computer hardware; data processing equipment, namely, computer hardware;

downloadable user and instruction manuals for computer hardware and computer software; recorded and downloadable electronic game software

International Classes 9 - Primary Classes **US Classes** 21, 23, 26, 36, 38 **International Class Title** Electrical and Scientific Apparatus

For security services for the physical protection of tangible property, namely security surveillance of buildings and control of access to buildings

International Classes 45 - Primary Classes **US Classes** 100, 101 **International Class Title** Personal and legal services

For Voice over Internet Protocol (VOIP) services; telecommunications services, namely, transfer of data by telecommunications networks; transmission of electronic mail; providing Unified Communications (UC) services via computer and telecommunications networks; providing integrated telecommunication services, namely, providing data transmission and reception services over telecommunication networks; video conferencing services; electronic data exchange services, namely, electronic exchange of data stores in databases accessible via telecommunication networks

International Classes 38 - Primary Classes **US Classes** 100, 101, 104 **International Class Title** Communication

For Warehouse storage of goods and packaging articles for transportation and delivery of computer products, electronic and electrical devices, instruments and components, and computer products; logistics services, namely, supply chain logistics and reverse logistics services, namely, storage, transportation, and delivery of documents, packages, raw materials, and other freight for others by air, rail, ship or truck; advisory and consultation services in the field of warehouse storage of goods and packaging articles for transportation

International Classes 39 - Primary Classes **US Classes** 100, 105 **International Class Title** Transportation and Storage

For custom assembly and manufacturing of computers, computer components, computer hardware, servers, cache servers, network attached storage servers, storage area network servers, internet appliances, telecommunications equipment, notebook computers, laptop computers, portable computers, and workstations

International Classes 40 - Primary Classes **US Classes** 100, 103, 106 **International Class Title** Material Treatment

For computer programming for others; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; computer services, namely, remote management of computer applications for others; installation, repair and maintenance of computer software; cloud computing featuring software for the design, selection, implementation and use of computer hardware and software systems for others; software as a service (SAAS) featuring software for the design, selection, implementation and use of computer hardware and software systems for others; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Computer services, namely, cloud hosting provider services; software as a service (saas) featuring software for use in monitoring and reporting status of office equipment used for copying, printing, and photographic imaging; software as a service (saas) featuring software for use in monitoring ink levels, toner levels, paper levels and other supply levels of office equipment used for copying, printing, and photographic imaging; software as a service (saas) featuring software for use in metering, counting, and reporting use of office equipment used for copying, printing, and photographic imaging; software as a service (saas) featuring software for use in providing integrated telecommunications services, voip services, video

conferencing services, and data sharing services in the field of telecommunications; software as a service (saas) featuring software for use in providing video conferencing services and data sharing services in the fields of technology, customer service, help desk services, accounting, and it infrastructure; software as a service (saas) featuring software for use in providing data sharing, data hosting, and data protection services in the fields of computer, data and network security, data storage and backup; provision of technical information services, in the field of information technology (it) products, computers, computer software, computer hardware, telecommunications and networking equipment, and consumer electronics; technical consultancy services relating to information technology; it consultancy, advisory and information services; computer technology support services, namely, help desk services; computer services, namely, computer system integration and troubleshooting of computer software problems; computer services, namely, providing data backup and restoration services; computer services, namely, hosting of web sites, server hosting; computer services, namely, providing electronic delivery, maintenance and renewal services for computer software; computer services, namely, design, creation, hosting, maintenance of websites for others; software as a service featuring software for use in monitoring and reporting status of office equipment used for copying, printing, and photographic imaging; software as a service featuring software for use in monitoring ink levels, toner levels, paper levels and other supply levels of office equipment used for copying, printing, and photographic imaging; software as a service featuring software for use in metering, counting, and reporting use of office equipment used for copying, printing, and photographic imaging
