General Comment

I cannot believe that this is an actual problem. The only question is why is the patent office issuing patents for such stupid things which make no sense and then making people spend tons of money to save their butts from being sued. perhaps the patent office should be sued for being so stupid and having too much power. They need to be held accountable for giving out patents to anyone. They should have to pay all legal fees involved in something so ridiculous. It saddens me to see how common sense has become a thing of the past and mentality incompetent people are making decisions for the rest of the world. And as that isn't enough, then trying to make it impossible for people to have any recourse to fight back. Let's just turn this planet over to all the sick criminals in the world and get it over with. Seems like nothing makes sense in the world and no one even cares anymore. Glad I'm in the last stages of my life. Hate to be around in another 20 years. God knows what life would be like.
